Abstract. Many individuals are often stressed and overwhelmed by the responsibilities and demands of life. It is a tragedy as individuals attempt to fulfill all these responsibilities as a professional, parent, spouse, and individual.

THESE RESULTS ARE IN ACCORDANCE WITH THE
FINDINGS OF OTHER STUDIES ON THE EFFECTS OF
STRESS ON COGNITIVE PERFORMANCE.

Abstract

[illegible][illegible]

The Illinois Department of Transportation (IDOT) is seeking a firm to provide design and construction services for the proposed new Illinois Department of Transportation (IDOT) building. The building is located on the east side of the State Capitol building in Springfield, Illinois. The building is to be a four-story structure with a total area of approximately 100,000 square feet. The building is to be constructed of steel and concrete. The building is to be designed to meet the needs of the IDOT staff and to provide a modern, efficient office environment. The building is to be constructed in accordance with the IDOT design and construction standards. The building is to be completed by the end of 2001. The IDOT is seeking a firm to provide design and construction services for the proposed new IDOT building. The firm should have experience in the design and construction of large, multi-story office buildings. The firm should also have experience in the design and construction of buildings that are designed to meet the needs of government agencies. The firm should be able to provide a complete design and construction package, including all necessary permits and approvals. The firm should be able to provide a competitive bid for the construction of the building. The IDOT is seeking a firm to provide design and construction services for the proposed new IDOT building. Conclusion
 It is a disappointing reality that ethnic minorities have a much lower likelihood (less than 10%) of being hired into middle management, especially compared to the 30% for whites. This is a reality that must be addressed.

FOCUS ON IT
 Publisher/President, *Entrepreneur*
 Guy Kawasaki said it best:
 "The Internet is information overload."
 From the viewpoint of a company
 already going online, it's
 no wonder the company
 doesn't expect another
 technology revolution. A disruption
 of what we call "e-commerce"
 when we see more in "e-biz"
 instead of the Internet. — *Editor*
